

Circle Star Pet Resort

In 2003, Vicki Cooper and her mother Vivian moved from California to East Texas. More...

They bought a beautiful 100 acre ranch. They loved dogs and at the suggestion of the local veterinarian, they began boarding them.

Vicki and Vivian created a wonderful environment for pets and named it Circle Star Pet Resort. Vicki's mother passed away a few years ago however in 2007, Vicki replaced the original building with a brand new Pet Boarding Facility on the ranch. In 2008 Vicki built another kennel just for small dogs and in 2010 she built yet another kennel. These kennels are not the traditional kennels of yesteryear. They feature indoor outdoor climate control runs with waterfalls, soft lights and music. All the pets get to enjoy time with a buddy on the play yard filled with forts, pools and bacon flavored bubble machines. A very unique feature of Circle Star Pet Resort is that each dog gets personal instruction on the agility equipment every day just for fun. At check out, "Parents" get to watch their dogs showing off their new skills through one way glass. Pictures of the each dog having fun at the Resort are available on Facebook daily. Even though the Pet Resort is out in the country, the kennels stay full year round. Clients say that they can tell their dog had a good time and wouldn't go anywhere else.

Throughout Vicki's life, she has always been involved in dog training as a hobby. She became a very accomplished obedience competitor and trainer, even though she had a successful primary career as an entrepreneur in another field. So it followed that when mother and daughter opened the Pet Resort, Vicki offered dog training. This too is so successful that she always has a 3-6 month waiting list.

Circle Star Pet Resort is now one of the Nation's Premier Pet Resort and Training Facilities.
